

Cut Test and Measurement Costs with this New Attenuator

1.85mm

AEROFLEX
INMET

An ISO 9001 Certified Company

An affordable alternative best describes this new series of RoHS compliant 2 Watt, 1.85mm 50 GHz attenuators from Aeroflex / Inmet.

Operational from DC to 50 GHz, and available in many popular dB values with good accuracy, the units provide a premium solution at below market price.
