

July 20, 2009

Dear Customer:

Aeroflex Plainview (Aeroflex) appreciates your interest and use of our products. The purpose of this letter is to inform you that the products listed in Table 1 have reached End-of-Life due to material obsolescence and are going out of production.

Please note: The remaining material inventory quantities shown in Table 1 represents the maximum quantity that can be manufactured due to material obsolescence as of the date of this letter. All listed products are offered to customers on a "first come, first serve" basis. Contact factory for current inventory status.

Table 1: Affected Aeroflex Products

Part Number	Description	Remaining Material Inventory	Accepting Orders Until	Suggested Replacement	Status
CT1698 Series	MIL-STD-1397 Type E 10MHz Low Level Serial Interface	500	Material Inventory Depleted	Customer Funded Form-Fit-Function Replacement <u>1/</u>	EOL
CT1815 Series	MIL-STD-1397 Type D 10MHz Low Level Serial Interface	500	Material Inventory Depleted	Customer Funded Form-Fit-Function Replacement <u>1/</u>	EOL
CT2500 Series	MIL-STD-1397 Type D & E 10MHz Low Level Serial Interface Protocol	0	No Material Available	Customer Funded Form-Fit-Function Replacement <u>1/</u>	Obsolete

1/ Aeroflex will consider requests to work with our customers on legacy product transitions should they still have requirements for the subject part numbers. At times it is a more cost effective solution to develop a custom drop-in replacement part using contemporary components versus the cost of re-designing the system hardware, updating the system software, and system re-qualification. Please contact Aeroflex for a Non-Recurring Engineering quotation for a Form-Fit-Function replacement part development.

If you have any questions, please contact Brigid Wolny, Sales Administrative Assistant at (516) 752-2435 or via email address brigid.wolny@aeroflex.com.

Regards,

Ray Benson
