FOR PRINT AND ONLINE RELEASE:

Aeroflex Announces Support for NXDN™ Radios

<http://www.aeroflex.com/ats/products/prodfiles/news/03162009.pdf>

LAS VEGAS—International Wireless Communications Expo (IWCE 2009)—March 16 – 20, 2009—Aeroflex announced support for new NXDN radios being developed for the land mobile radio market. As a member of the NXDN™ Forum, Aeroflex is leading the way with new test features that aid in the research and development of this exciting new radio technology.

“Aeroflex is the leader in Land Mobile Radio test solutions,” said Rob Barden, Director of Product Marketing for Aeroflex. “As part of the NXDN Forum, Aeroflex is committed to providing leading edge test technology to aid in the development of this new technology.”

The 3920 provides an extensive range of test functions for NXDN, including Digital Modulation Analysis, Bit Error Rate testing, power and frequency error measurements.

The 3920 is the worldwide industry standard for testing digital radio technologies. The 3920 supports a wide variety of technologies including Analog, P25, TETRA, DMR and other test capabilities. Designed as a software defined Radio Test solution, the 3920 is field upgradeable to support new radio technologies.

Availability

Delivery for the NXDN Option is expected in May 2009. The Aeroflex 3920 has a delivery time of 8-10 weeks upon receipt of order. For more information, contact your local Aeroflex sales office by visiting www.aeroflex.com or calling Aeroflex Sales at (800) 835-2352.

About Aeroflex

Aeroflex Incorporated is a global provider of high technology solutions to the aerospace, defense, cellular and broadband communications markets. The Company's diverse technologies allow it to design, develop, manufacture and market a broad range of test, measurement and microelectronic products. Aeroflex Incorporated was founded in 1937 and today has more than 2600 employees worldwide. Additional information concerning Aeroflex Incorporated can be found on the Company's Web site: www.aeroflex.com.

All statements other than statements of historical fact included in this press release regarding Aeroflex's business strategy and plans and objectives of its management for future operations are forward-looking statements. When used in this press release, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to Aeroflex or its management, identify forward-looking statements. Such forward-looking statements are based on the current beliefs of Aeroflex's management, as well as assumptions made by and information currently available to its management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors, including but not limited to, competitive factors and pricing pressures, changes in legal and regulatory requirements, technological change or difficulties, product development risks, commercialization difficulties and general economic conditions. Such statements reflect our current views with respect to the future and are subject to these and other risks, uncertainties and assumptions. Aeroflex does not undertake any obligation to update such forward-looking statements.
